### **PLANTING SEASONS**

**SPRING SEASON** — Begins as soon as the frost is out of the ground, usually about March 20. Continues until early June, although Evergreens and Perennials can be successfully planted until early July. |Early planting, however, is preferable.

**FALL SEASON** — Evergreens can be transplanted from early August to late November; Perennials during September and October; Deciduous Trees and Shrubs from mid-September to late November. In their respective planting periods, the earlier parts are preferable — ORDER EARLY.

### **PLANT NAMES**

We have endeavored to list our plants in accordance with the names as given in "Standardized Plant Names," which has been officially adopted by the American Association of Nurserymen.

If you have difficulty in finding here any varieties you wish, write us and we will immediately advise you whether or not we can furnish them.

### **PLACING ORDERS**

Orders may be sent to either our office at North Abington, or to Framingham, as you may prefer or find more convenient.

In filling orders we shall select the best material from both nurseries. Frequent truck service is maintained between the two shipping headquarters, bringing to each place any particular items from the other establishment required for filling orders.

### **SHIPPING DIRECTIONS**

In ordering nursery stock our customers are requested to state explicitly the mode of conveyance by which they wish their stock forwarded. We make shipments by express, freight, or motor truck. The price for all our material is at the nursery and does not include delivery. We can make shipment by motor truck at a moderate charge, provided the order is large enough to make a truckload. When no route or method is designated, we exercise our judgment. In no case do we assume responsibility after packages are shipped, except for our own mistakes. When losses occur by detention or mishandling, claim should at once be made on the transportation company by the consignee.

### **CONDITIONS OF SALE**

1. The articles herein listed will be furnished in accordance with the following schedule:

1 to 4 plants of one kind and size will be priced at the each rate.

5 to 24 plants of one kind and size will be priced at the ten rate.

25 or more plants of one kind and size will be furnished at the hundred rate, when hundred rates are given.

FROM THIS SCHEDULE WE WILL NOT VARY because of the fact that considerable time is required to assemble an order made up of small lots of kinds that are widely separated over the nursery.

2. We make no charge for packing retail orders, except on very large evergreens and large shade trees, or other ungainly-shaped plants. On orders other than retail, packing will be charged extra at cost.

3. We give no warranty, expressed or implied, as to quality, description, productiveness of any nursery stock that we sell. The only guarantee that we make is that our stock is alive at time of shipment and true to name. No complaints will be considered that are not made forthwith upon receipt of order. Any stock ordered from this list found untrue to name, will be cheerfully replaced at the first favorable opportunity for planting, after it has been found not as ordered.

4. Super-specimen plants, selected by the customer, or by his representative, will be priced according to their individual values.

### **TERMS**

Our terms are cash. Charge accounts, for 30 days credit, may be opened upon receipt of satisfactory credit references — allowing us time for investigation. All accounts unpaid after due date will be subject to sight draft without further notice. C. O. D. express shipments will be made (with collection charges added to the bill) only when order is accompanied by a deposit of at least 25 percent of the amount of the bill.

### **DISCOUNTS**

A discount of 5 per cent may be deducted when payment in full accompanies the order. Charge accounts are subject to a discount of 2 per cent if paid within 10 days after date of invoice.

## Evergreen Trees

Our Evergreens have the quality necessary to provide excellent IMMEDIATE EFFECT—and heavy root masses to promote TRANSPLANTING SUCCESS.

We dig our Evergreens with a ball of the earth in which they are grown, and wrap them in burlap WITHOUT additional charge.

## Dwarf Hedge Yew

The only satisfactory evergreen for dwarf edging hedges in severe New England climate. The best substitute for Dwarf Boxwood. Hardy, really dwarf, fine texture, dark, easily grown, shears perfectly, thoroughly tested for past fifteen years. Also excellent for use in general plantings of dwarf evergreens.

### **PEAT MOSS**

The most satisfactory mulch for Rhododendrons or broad-leaved evergreens of any type is Peat Moss. This we can supply in large full-sized bales at \$3.00 each, \$27.00 per ten. We can also supply bags for those who want only a small amount at 75c each, \$6.00 per 10.

## Deciduous Trees

In compiling this list, we have endeavored to include only such varieties of stock as we have now in our nurseries, in sizes and quantities offered. In filling orders we shall grade stock according to these specifications. Should orders be received for sizes not found in this list, or should any specified grade be exhausted, we will send the nearest size we have in stock at the time the order is received and charge accordingly UNLESS OTHERWISE ADVISED.

**MALUS**

(The Flowering Crabs)

We specialize in growing semi-matured specimens of the several MALUS species. Unlike the usual run of stock offered, these are mostly old trees, several times transplanted, and heavy enough to give a worthwhile immediate effect.

***theifera***

The following description is given by the late Dr. E. H. Wilson, Keeper of the Arnold Arboretum, who discovered this tree: "Rigid of branch, with wands of blossoms often 15 ft. long, the Chinese *M. theifera* is the very quintessence of Crabapple loveliness. It is a small tree, seldom exceeding 20 feet in height, with sparse, upright and spreading, rather zigzag branches. When in blossom the whole branch is transformed into a floral plume into which it is impossible to thrust a finger without touching a flower. The petals are reddish pink in the folded bud, white or delicately stained with pale pink when fully expanded."

**AZALEAS**

Our stock of Azaleas is all NURSERY GROWN, several times transplanted, having heavy masses of fibrous roots which insure superior results to the planter. They should not be compared with collected stock frequently offered.

All Azaleas will be balled and burlapped (B&B) without extra charge.

(U. S. Plant Patent No. 110)

(Propagation Rights Reserved)

A wonderful new improvement of the old dependable Japanese Barberry, developed by five generations of breeding and selection. It has every good point of its parent type—its hardiness, tenacity of life under trying conditions, and the adaptability to wide variations of soils and exposures. Besides this it has other advantages of its own. TRUEHEDGE COLUMNBERRY has darker foliage than the Japanese Barberry, remaining dark in spite of severe drought; its fall color is even richer and deeper; and its scarlet berries are borne with still greater profusion. But most important of all of the advantages of TRUEHEDGE COLUMNBERRY is its perfect habit of growth; its dense, erect, bushy, columnar shape, which makes a perfect hedge the instant it is planted, and needs little or no pruning to keep it perfect. While more expensive to purchase, it is actually cheaper in the end, by virtue of the saving in pruning labor, and you don't have to wait years for the hedge to develop its form.

**PROPAGATION RIGHTS RESERVED**

The Truehedge Columnberry is protected by Plant Patent No. 110 under the U. S. Patent Laws. A sexual reproduction or disposition by sale, gift or otherwise, of scions, buds, or cuttings for such reproduction is prohibited unless license is previously obtained from the patent owners. Unauthorized reproduction, sale, or distribution of propagation material of this plant will subject the one engaging in the same to prosecution for infringement. For resale or Retail Only except under license from the patent owners.

## Hardy Roses

The roses we offer have been carefully grown for good roots and tops and are first class 2 year old field grown plants.

Prices: 75c each, 10 or more at 70c each, unless otherwise noted.

## Hybrid Tea Roses

The following list includes not only those older sorts that have proven satisfactory, but also many of the most desirable new ones.

**Countess Vandal.** Plant Patent No. 38. Long, pointed buds of salmon, pink and coppery bronze. A strong and unceasing bloomer. \$1.00 each, \$8.50 per 10.

**Dotty.** Bronzy-yellow with glossy foliage. \$1.00 each, \$8.50 per 10.

**E. G. Hill.** Great massive blooms of deep velvety maroon.

**Etoile de Hollande.** Brilliant dark red flowers with enormous petals.

**Golden Dawn.** Deep yellow buds suffused with pink; opening lemon-yellow.

**Gov. Alfred E. Smith.** (Plant Patent No. 62.) Large, showy, new rose with blossoms of salmon and gold. \$1.25 each, \$10.50 per 100.

**Joanna Hill.** Heavy lemon buds, evolving into a very double bloom with creamy, yellow center.

**Killarney White.** Pure white, long pointed buds.

**Margaret McGredy.** Large, ovoid buds and double, cupped flowers of solid, orange-vermilion.

**Mary Hart** (Plant Patent No. 8.) Velvety maroon suffused with amber. \$1.00 each. \$8.50 per 10.

**Mevrouw C. A. Van Rossem.** Striking blend vivid orange and apricot on a golden yellow ground.

**Mrs. Aaron Ward.** Coppery orange in open bud, pinkish fawn when full.

**Mrs. Charles Bell.** Lovely shell-pink shaded soft salmon, sweetly perfumed.

**Mrs. E. P. Thom.** Rich yellow.

**Mrs. Henry Morse.** Long pointed buds of contrasting light-pinks with an underlying yellow glow.

**Mrs. Pierre S. du Pont.** Medium-sized long, pointed buds of reddish gold opening to semi-double cupped flowers of deep golden yellow.

**HYBRID TEA ROSES—continued**

**Mrs. Sam McGredy.** Orange-salmon suffused with gold.

**Nigrette** (Plant Patent No. 87.) The "black Rose" Fragrant, cup-shaped flowers of deep maroon with a velvety black sheen, all summer \$2.00 each, \$16.50 per 10.

**President Hoover.** Maroon shading to orange and gold.

**Prince Felix.** Rather large well-formed blossoms of brilliant scarlet.

**Radiance.** Brilliant carmine-pink, with salmon-pink and yellow shadings.

**Red Radiance.** A bright rosy red form of Radiance.

**Roslyn.** Large double golden yellow blossoms deeper in center, with orange splashings on back of petals.

**SOUVENIR.** (Plant Patent No. 25.) A golden yellow Talisman. A superb garden variety with blossoms of deep golden yellow. \$1.00 each, \$8.50 per 10.

**Souvenir de Claudius Pernet.** A beautiful sunflower yellow with brilliant green foliage and few thorns.

**Talisman.** Sensational brilliantly colored rose of bright yellow, gold and pink.

**Token.** (Plant Patent No. 95.) New large, double golden-apricot, a unique color. \$1.50 each, \$12.50 per 10.

**Ville de Paris.** Round buds of bright yellow which open into fadeless double blooms.

**HYBRID PERPETUAL ROSES**

The price is 75c. each, \$7.00 per 10 except as noted.

Generally speaking, the Hybrid Perpetual Roses are hardier than the Hybrid Tea Roses, but do not bloom over as long a period during the Summer

**CULTIVATED BLUEBERRIES**

These large-fruited Blueberries are much admired by those who have seen them.

For perfect fertilization and successful fruiting, not less than three plants of assorted varieties should be grown fairly closely together.

The varieties we offer are CABOT, PIONEER and RUBEL.

In filling orders, we will supply a mixture, labelling each plant.

## Herbaceous Department

We are growing herbaceous perennials at both our North Abington and Framingham Nurseries. The larger variety and quantity by far is grown at our North Abington nurseries, where we have a separate department of over forty acres of hardy perennials.

We extend a cordial invitation to those who are interested, to visit our perennial department, see our propagating greenhouses, our large stock of perennials and our facilities for handling orders.

We are continuing to offer perennials in quantities of three, instead of singly, as we believe generally speaking it isn't practical to get a satisfactory garden effect by using one plant of a kind. Please remember that five plants or more of one variety will be priced at the ten rate and that twenty-five or more of one kind will be entitled to the hundred rate. In instances where only a single plant is wanted, the price will be one-third the rate for three.

The material we grow is strong field grown stock, with the exception of some varieties which transplant better by being grown in pots.

As in the case of evergreens and flowering shrubs, orders may be placed for perennials at either our North Abington or our Framingham offices, and we will attend to the prompt filling and careful assembling of your orders.

## Hardy Perennials, Ferns, Grasses and Herbs

Varieties marked with an asterisk (\*) are particularly adapted for the rock garden.

Full descriptions will be found in our Handbook of General Information.
